

## Bio-Simplex™ Sterile Assemblies

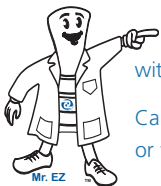

Bio-Simplex™ Sterile Assemblies provide the convenience of a single-use filling accessory. The pharmaceutical grade molded one piece construction creates a seamless fluid path and unobstructed inner bore eliminating contamination and product loss due to loose connections.

Can be combined with Bio-Simplex™ Manifolds and accessories to create a closed loop system. Made from pharmaceutical grade TPE resin and tubing to insure extremely low levels of extractables and provide an elastomeric seal against glass, plastic and metal surfaces. Pre-sterilized (gamma irradiated).

Custom designs, sizes, and packaging available upon request.

CONTAINER SIZE	DESCRIPTION	PART NUMBER
125mL PETG Bottle	38mm 2 Port Stopper Assembly (Plug, Filter, Cap), Gamma Irradiated	SA38MM-125-2F-DB
250mL PETG Bottle	38mm EZ-Top® Assembly (Plug, Filter, Cap), 25mm, Gamma Irradiated	SA38MM-250-2F
250mL PETG Bottle	38mm 2 Port Stopper Assembly (Plug, Filter, Cap), Gamma Irradiated	SA38MM-250-2F-DB
500mL PETG Bottle	38mm 2 Port Stopper Assembly (Plug, Filter, Cap), Gamma Irradiated	SA38MM-500-2F
500mL PETG Bottle	38mm 2 Port Stopper Assembly (Plug, Filter, Cap), Gamma Irradiated	SA38MM-500-2F-DB
1Liter PETG Bottle	38mm Stopper with Vent Filter, Plug, Clamp, Gamma Irradiated	SA38MM-1L-1F-CL
1Liter PETG Bottle	38mm EZ-Top® Assembly (Plug, Filter, Cap), 25mm, Gamma Irradiated	SA38MM-1L-2F
2Liter Polycarb. Bottle	With Filter, Plug, Cap, Gamma Irradiated	SA38MM-2LPC-2F
Eight 60mL Sample Bottles	C-Flex® Manifold Assembly, 500mL Purge with Vent Filters, Gamma	SA10-10068
